

LASER BAR CODE SCANNER

Flic Scanner End of Life Notice

Effective Date: November 30, 2007

To: All Microvision Flic Scanner Customers and Resellers

Background:

Microvision announces the End of Life for Flic Laser Bar Code Scanner and Flic Cordless Laser Bar Code Scanner. As of November 30, 2007, Flic Scanner production has ceased and is being replaced by the ROV Laser Bar Code Scanner. Microvision recommends migrating to the new ROV Scanner or ROV Scanner with Bluetooth to replace Flic Scanners.

More Information:

Information on ROV Scanners, accessories, and supporting software may be found at www.microvision.com/barcode

Support

Microvision will continue to provide customer support for Flic Scanners for fourteen (14) months from the date of this End of Life notice. However, Microvision will not support new application development for Flic Scanners.

Microvision will honor the one year warranty for Flic Scanner Products per the product warranty statement.

Last Time Buy

A limited number of Flic Scanners are still available for last time purchases. Please contact your Sales Representative for inquiries.
